Allowable Subject Matter

1. Claims 13-22 are allowed.

The following is an examiner's statement of reasons for allowance: The references of the Prior Art of Record fail to teach or suggest either alone or in obvious combination the limitations as set forth in claim 13, and specifically comprising the limitation of the piezoelectric actuator comprising outer electrodes having at least one region configured for compensating for length variations of the piezoelectric actuator in a main oscillation direction by an elastic deformation thereof substantially exclusively in a plane parallel to the main oscillation direction, the outer electrodes having a comb-shaped profile with a meander-form conductor plate and contact teeth for contacting the metallization strips projecting from the conductor plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
